About Me

Hi there! My name is Ashish Shrestha, and I'm a content producer with a passion for photos and videos. I have always been drawn to the world of art and creativity. Whether it was drawing or taking photos, I loved the way that art could capture a moment or tell a story.

I completed my bachelor's degree in Multimedia Technologies from Islington college and since then I have began to focus on honing my skills in photography and videography. Over the last few years, I have worked on a variety of projects, from portrait photography to promotional videos, and I am always eager to learn and try new things.

When I'm not behind the camera, you can find me playing different sports and esports as well as going out as much as I can to explore the nature which often inspire and inform my creative work. I'm excited to share my portfolio with you, and I hope you enjoy my work as much as I enjoyed creating it!
